DualEnroll

What is DualEnroll.com

A cloud-based platform, purpose build to cost-effectively grow and improve dual/concurrent enrollment programs

- Increases student participation
- Automates administrative work
- Streamlines coordination between colleges and high schools
- Provides reporting and program data for compliance and continuous improvement

How does it work?

- Modules for students, high school and college
- Exchanges data with your student system
 - Student system is still system of record
 - Both systems in sync/up to date
- Works with all major student systems (Banner, Colleague, Jenzabar, Peoplesoft) plus home-grown or smaller systems
