Concurrent Enrollment and the Advisory Committee

University of Arkansas at Little Rock

Presenters:

Mary Elizabeth Woolery, Nicholas Steele and Kim Hebel

History and Need

After reviewing NACEP standards, it was clear that our program was deficient in several areas.

Partnerships seems to be the best place to begin improvements.

After discussions with University departments, we formed an advisory committee.

Selection

Selected a variety.

Representing public, private, charter, rural, and metro.

Purpose

Why are we calling another meeting?

Established a purpose statement:

The Concurrent Enrollment Advisory Committee will collaboratively explore and implement best practices for UA Little Rock's Concurrent Enrollment Program (CEP).
