Major Tenets of Perkins V

*Ashleigh McFadden, State Policy Manager*

*Advance CTE*

*April 23, 2019*
Agenda

• Unpack major tenets of Perkins V
• Explore opportunities for connection between Perkins V and college in high school programs
• Share resources for further reading
• Respond to any audience questions
All CTE programs are held to the highest standards of excellence.

All learners are empowered to choose a meaningful education and career.

All learning is personalized and flexible.

All learning is facilitated by knowledgeable experts.

All systems work together to put learner success first.
Perkins is a lever – one of many – that can be used to achieve your state’s vision for career readiness
What Does Perkins Do?

• Perkins is a federal education program that invests in secondary, postsecondary and adult Career Technical Education (CTE) programs in all 50 states, the District of Columbia and the territories

• Perkins is:
  • dedicated to the continuous improvement of and relevancy of CTE to meet the ever-changing needs of learners and employers
  • increasing learner access to high-quality CTE programs of study
CTE in the U.S.

11.9 MILLION LEARNERS PARTICIPATING IN CTE (2016–17)

8.28 MILLION at SECONDARY LEVEL

3.63 MILLION at POSTSECONDARY LEVEL

3.58 MILLION CONCENTRATORS

1.91 MILLION CONCENTRATORS

Major Tenet 1: Program Improvement

- Maintains commitment to programs of study
- Introduces comprehensive local needs assessment
- Increases reserve fund to spur local innovation and implement programs of study
- Adds new national, competitive grant program that focuses on innovation and modernization
- Increased focus on alignment to labor market needs
- Stronger focus on equity, including a new purpose on increasing opportunities for special populations
The term “career and technical education” means organized educational activities that—

(A) offer a sequence of courses that—

• (i) provides individuals with rigorous academic content and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions, which may include high-skill, high-wage, or in-demand industry sectors or occupations, which shall be, at the secondary level, aligned with the challenging State academic standards adopted by a State under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965;

• (ii) provides technical skill proficiency or a recognized postsecondary credential, which may include an industry-recognized credential, a certificate, or an associate degree; and

• (iii) may include prerequisite courses (other than a remedial course) that meet the requirements of this subparagraph;

(B) include competency-based, work-based, or other applied learning that supports the development of academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of an industry, including entrepreneurship, of an individual;

(C) to the extent practicable, coordinate between secondary and postsecondary education programs through programs of study, which may include coordination through articulation agreements, early college high school programs, dual or concurrent enrollment program opportunities, or other credit transfer agreements that provide postsecondary credit or advanced standing; and

(D) may include career exploration at the high school level or as early as the middle grades (as such term is defined in section 8101 of the Elementary and Secondary Education Act of 1965).
Definition: Program of Study

The term ‘program of study’ means a coordinated, nonduplicative sequence of academic and technical content at the secondary and postsecondary level that—

• (A) incorporates challenging State academic standards, including those adopted by a State under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965;
• (B) addresses both academic and technical knowledge and skills, including employability skills;
• (C) is aligned with the needs of industries in the economy of the State, region, Tribal community, or local area;
• (D) progresses in specificity (beginning with all aspects of an industry or career cluster and leading to more occupation-specific instruction);
• (E) has multiple entry and exit points that incorporate credentialing; and
• (F) culminates in the attainment of a recognized postsecondary credential.
Major Tenet 2: Flexibility

• Retains governance structure and flexibility of eligible agency
• Expands support for career exploration to go as low as grade 5
• Alignment to the Every Student Succeeds Act (ESSA) and Workforce Innovation and Opportunity Act (WIOA)
Major Tenet 3: Data & Accountability

• Defines who is included in the accountability system
• Shifts the accountability indicators
• Changes the process for setting performance targets
  • Includes strengthened stakeholder engagement process
• Focuses on disaggregation of data
Secondary Accountability Indicators

- Graduation rates
- Academic proficiency
- Student placement
- A measure of "CTE program quality":
  - student attainment of recognized postsecondary credentials;
  - student attainment of postsecondary credits in their CTE program/program of study; or
  - percentage of students participating in work-based learning.
- The percentage of CTE concentrators in CTE programs that lead to nontraditional fields
Perkins V and Dual and Concurrent Enrollment Programs
Opportunities for Connection

Definitions

- Cohesive, statewide vision for career readiness
- Local application
- Secondary program quality indicator
- State plan
- National activities
